

Happy June to all our families, we have been very busy across Jelly Bears this June celebrating lots of special days and events. We have been celebrating father's day, King Charles' birthday, fish and chip day and of course 30 Days wild! Please check out our Facebook posts to see what we have been doing for 30 Day's Wild.

Jelly Babies and Tots Highlights

Jelly Babies have been doing some messy activities this month. We baked a banana cake where we did some pouring and mixing with all the ingredients. We loved eating it afterwards too!

We looked at a variety of flowers in some gloop and drizzled the gloop on our legs. We have also looked at different insects in our story books.

The tots have thoroughly enjoyed watching our caterpillars grow! They are now in their cocoons and we can't wait to set them free as Butterflies. We have been hunting for all sorts of bugs and finding them in our story books, too. We had lots of fun junk modelling to learn about world environment day.

Jelly Beans Highlights

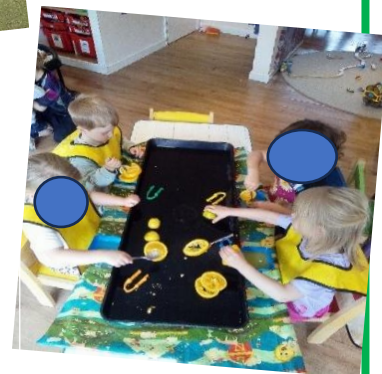

This month in Jelly Beans (for fish and chip day) we turned the home corner into 'Jelly Bears fryer'. They all took turns to serve and to be served food which they had made in their kitchen. We spoke about what we get from our local fish and chip shop.

We have been exploring our new basketball hoop in the garden and coming up with some exciting games to play. This helps to develop our hand-eye-coordination, and practice of throwing.

As we prepare for the warmer heat, we have been exploring a variety of materials in water. We explored a citrus tray and expressed what we could smell, feel, and taste.
