

This month we have been enjoying lots of different activities. We have also celebrated a variety of days including World First Aid Day, Talk Like A Pirate Day, Emergency Service Day, National Quiet Day, National Fitness Day. In October we will be celebrating more days and weeks including Space Week, Big Drawing Month, National Pizza Month, International Coffee Day, World Mental Health Day and Diwali.

Jelly Babies and Tots Highlights

Babies and Tots celebrated 'talk like a pirate day' by exploring a pirate ship. We also explored a people sensory tray where we splashed in the glittery water!

This month we have explored painting with sponges to create bears and look at the different marks they make. We looked at colour mixing in some water and used our paint brushes to mix them all together and change the colour. We also practiced our single words naming farm animals and connecting what sounds they make.

Tots have been showing a big interest in doctors roleplay and baby dolls. We decided to open our own Jelly Tots Surgery, using bandages and plasters to make each baby feel better. For national wildlife day we painted using minibeasts, exploring what marks they leave behind!

Amelia - Babies Room Lead **Zoe** - E.Y.E

Jorja - Level 3 Apprentice

Jelly Beans Highlights

We celebrated Rosh Hashanah by using apples to print marks on paper. Apples represent a fruitful and fresh New Year!

We have enjoyed exploring board games in small groups to develop friendships and communication with one another. It also helps us to be patient and share.

For World First Aid day, we learnt about the recovery position and step-by-step practiced this on one another. We then used what we learnt, to put the adult in the recovery position as a team.

For National Wildlife day, we looked at different images of garden birds. We then used pastels to create our own observational art of a bird of our choice.

We have developed our knowledge of different mathematical terms such as 'big, small, tall and short' through grouping games. We have developed our counting and understanding of the meaning of numbers by matching quantities with their number.

Leah - Room Lead **Wendy** - Quality Lead, DSL
Antonia- E.Y.E **Liberty**- E.Y.E

Kim - Managing Director, DSL (office based)

Courtney - Deputy Manager, DSL, Lead SENCo (office based)

Jessie - E.Y.E (MAT Leave) **Helen** - Cook **Rosie** - Bank Staff **Caroline** - Bank Staff
